Parking Solutions

Organization: Kone

Overview: Partners with parking solutions can call Kone Elevators automatically once the vehicle parking is finished.

Current Challenges: Users upon parking the vehicle will have to walk towards the elevator lobby and make a call. User has to wait for some time for the elevator to arrive. The waiting time can be greatly reduced if the call is booked in advance once the parking is finished.

Business Requirements: Eco system partner, Should support interfacing with KONE APIs. Internet connectivity.
